

I get a test

Tests help me keep safe.

I go to the test room.

I wash hands.

I can

ask

for

help.

Adults

wear

a

face mask.

The

adult

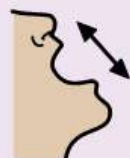

has

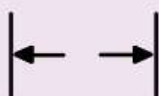

a

swab.

I

open my mouth

wide.

The

swab

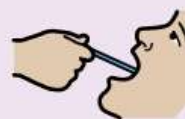

rubs

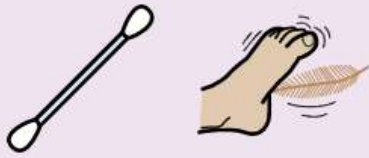

inside

my

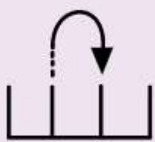

mouth.

The swab tickles.

It will finish fast.

Next the swab tickles inside my nose.

Then I am finished.

I can feel happy.
